Cincinnati Fire Museum Announces Grand Opening of WE ARE CFD – Who We Are and What We Do

(CINCINNATI, OH) September 30, 2025 – The Cincinnati Fire Museum is proud to announce the unveiling of our newest immersive exhibit, WE ARE CFD – Who We Are and What We Do, on Thursday, October 23, 2025, at 7:00 p.m.

Produced in partnership with Chili Dog Productions, this groundbreaking exhibit invites visitors to step directly into the world of Cincinnati's firefighters. With the use of cutting-edge technology, the exhibit transports visitors into the heart of a firefighter's workday. Through interactive storytelling, realistic soundscapes, and advanced visual displays, you'll learn what it's like to gear up, respond to calls, and carry out the lifesaving work of the Cincinnati Fire Department.

"I am proud to honor the men and women of the Cincinnati Fire Department through this exhibit," said Executive Director Sarah Strickland. "This exhibit also enhances the museum visitor's experience with modern technology and an immersive look into a firefighter's world."

The grand opening will be attended by city officials, Fire Department leadership, museum stakeholders, and community supporters. **Members of the press are invited to cover the event and experience the exhibit first-hand.**

About the Cincinnati Fire Museum

The Cincinnati Fire Museum preserves and celebrates the city's rich firefighting history while educating the public on fire safety and prevention. Through exhibits, programs, and community engagement, the museum honors the legacy of firefighters past and present.
